

Promotion of health education on AIDS prevention In August of 2022

A. Regular Inmates

1. New inmates:

Playing sanitation education promotional video on AIDS during investigation of new inmates to provide all inmates an initial knowledge on AIDS.

(2 times for a total of 38person-time)

2. In-prison inmates:

Invite professional lecturers every month in a regular cyclical format to sponsor AIDS prevention class in each factory and ward to instill the correct concept and knowledge about AIDS and to teach inmates on things to watch out for and direction of future life after being released.

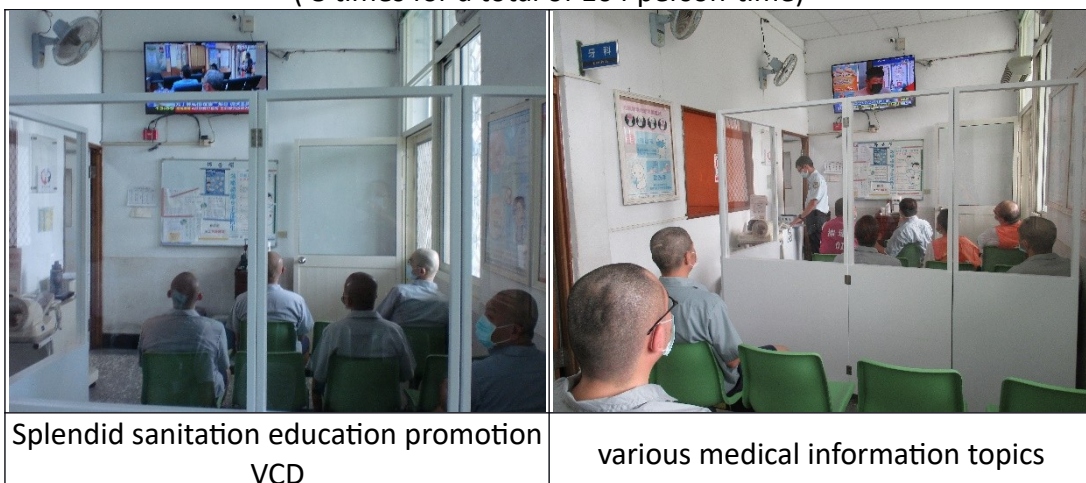

(1 time for a total of 39person-time)

3. Promotion of sanitation education to regular inmates:

Video conference while in clinic with materials of sanitation education promotion, or distributing sanitation education materials on AIDS which are also distributed to every unit in order to increase the knowledge and awareness in the inmates about the disease.

(8 times for a total of 104 person-time)

B. The Infected

About to be released infected inmates :

The public health nurse of Yunlin Public Health Bureau or Social worker conduct individual interviews to help with after-release medical care and settlement so that the infected can successfully maintain contact with social support group and reduce the chance of using narcotics or infecting others.

(1 time for a total of 1 person-time)
